Survey Overview

The City of Santa Maria is in the process of updating its General Plan, which will guide the future of the city over the next 20-30 years. The City launched the General Plan Update in early 2020 and is committed to fostering an inclusive and far-reaching community engagement process to receive input from a variety of stakeholders. As one of its first community outreach activities, the City conducted an online Qualities and Changes Survey (survey). The survey was available in both Spanish and English from July to September 2020.

The purpose of this survey was to identify high level qualities to preserve and issues to address through the General Plan Update process. As such, respondents were asked the following questions:

- How would you rate your experience of living and/or working in Santa Maria today?
- Over the past five (5), how has your experience living and/or working in Santa Maria changed?
- Which existing qualities are most important to preserve over the next 20-30 years?
- How important are the following changes to Santa Maria in the future to you?

The results from these questions, in addition to results of other community engagement activities of the Listening + Visioning Phase of the project, will shape the Vision and Guiding Principles of the General Plan, which will ultimately inform the policy direction of the General Plan.

A link to the survey was available on the General Plan Update website, ImagineSantaMaria.com. The survey was publicized in utility bill mailers sent in July 2020, two media releases from the City of Santa Maria, and social media and/or other media releases (such as newsletters) from the City of Santa Maria, the Santa Maria Valley Chamber of Commerce, the Santa Maria Public Library, the Santa Maria-Bonita School District, and the Santa Maria Joint Union High School District. The organization CAUSE (Central Coast Alliance United for a Sustainable Economy) encouraged its constituents to participate in the survey and hosted events where they could provide technical support to constituents taking the survey. Members of the General Plan Technical Advisory Committee (TAC) were encouraged to spread word of the survey through their networks of contacts.

COVID-19 Impacts

Shortly after the project was launched, Santa Marians and all Californians were faced with the unprecedented challenges of responding to and preparing for the long-term impacts of the COVID-19 Pandemic. In the immediate term the response from the City has been to alter the engagement plan for the General Plan Update—switching from in-person to online meetings, returning to traditional outreach methods such as utility bill mailers, and expanding partnerships with trusted messengers to ensure the diversity and inclusion goals of the engagement plan are met. In the long-term, the City is concerned with the health and wellbeing of residents and has taken advantage of the ongoing outreach and engagement conducted through the General Plan Update to hear from residents. Specifically, a subset of questions in the Qualities and Changes Survey asked residents to provide feedback on impacts of the COVID-19 Pandemic and ideas on how the City can better support residents today while also preparing for future public health emergencies.

Survey Responses

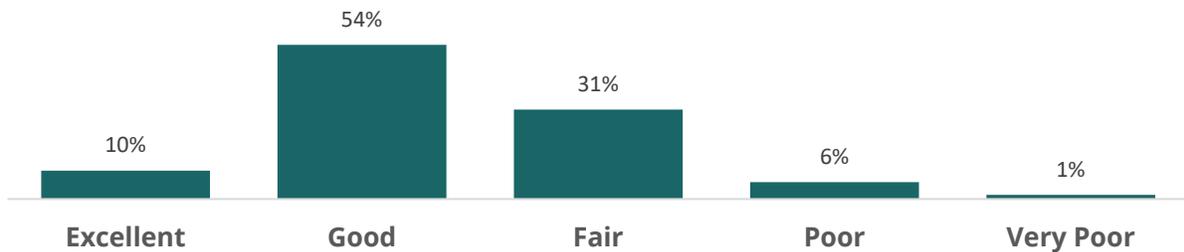

Present Quality of Life in Santa Maria

Experience of Living or Working in Santa Maria

How would you rate your experience living and/or working in Santa Maria today?

- Most respondents (64%) rated their experience of Santa Maria as excellent or good.
- Another third (31%) of respondents rated their experience as fair.
- Less than one in ten (7%) respondents rated their experience as poor or very poor.

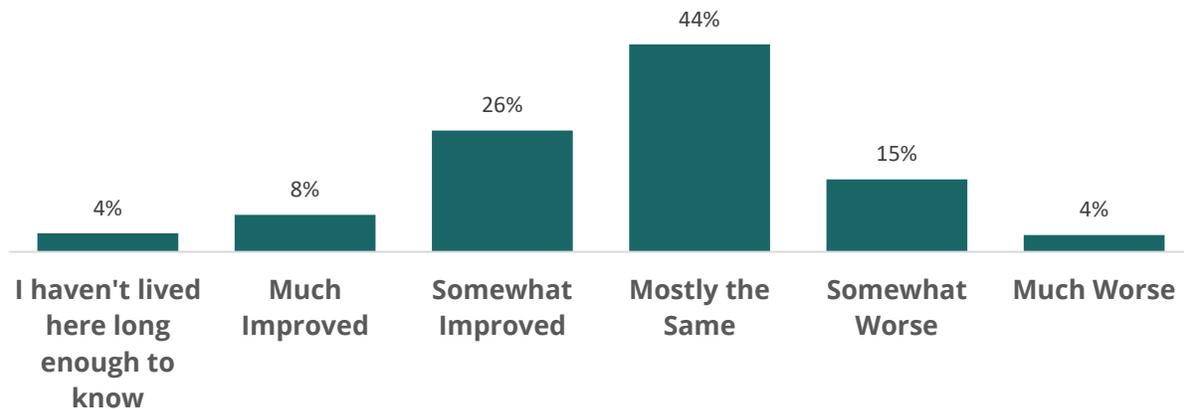

How would you rate your experience living and/or working in Santa Maria today?

Over the past five (5), how has your experience living and/or working in Santa Maria changed?

- Most respondents (44%) said their experience had remained mostly the same or they hadn't lived in Santa Maria long enough to know (4%).
- About one third of respondents (34%) have seen their experience become somewhat or much improved, while about one fifth (19%) have seen their experience become somewhat or much worse.

Over the past five (5) years, how has your experience living and/or working in Santa Maria changed?

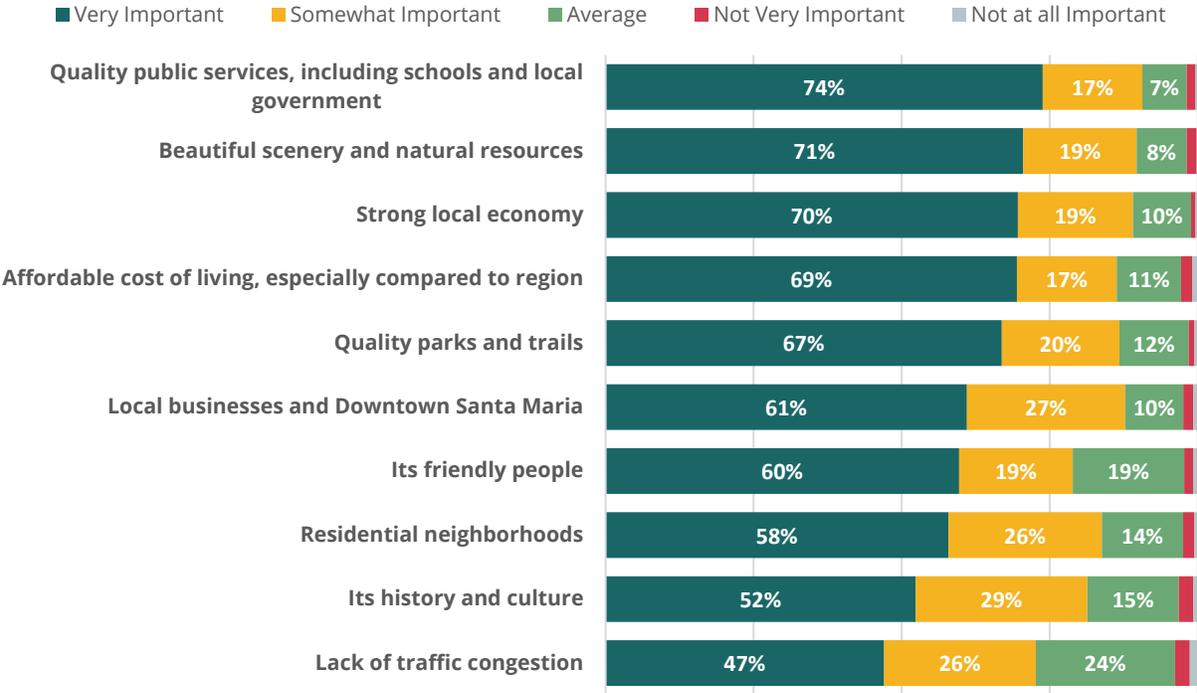

Unique and Special Qualities of Santa Maria

Participants were presented with a list of unique and special qualities of Santa Maria and asked to rate their perceived level of importance for each of the qualities to be preserved over the next 20-30 years. The top five qualities deemed “very important” by most respondents are:

- Quality public services, including schools and local government (74%)
- Beautiful scenery and natural resources (71%)
- Strong local economy (70%)
- Affordable cost of living, especially compared to other cities across the region (69%)
- Quality parks and trails (67%).

Which existing qualities are most important to preserve over the next 20-30 years?

What else makes Santa Maria unique and special? Over 200 hundred respondents provided additional comments. Many supported the qualities identified earlier in the survey, while some provided more detail on additional qualities, such as:

- The agricultural sector as an economic and cultural driver, including its workers, the community built around it, its history, and the strawberries and wineries as key commodities.
- Its regional location and proximity to many amenities, natural resources, and jobs.
- Its diversity and openness to different ethnicities, cultures, languages, and cuisines.
- The “small town” feel that remains even through the recent growth and changes.
- The quality of Santa Marians: hard-working people, always willing to help one another.

Priorities for the Future of Santa Maria

Participants were presented with a list of potential changes for the future of Santa Maria and asked to rate their perceived level of importance. The top three changes deemed “very important” by most respondents are:

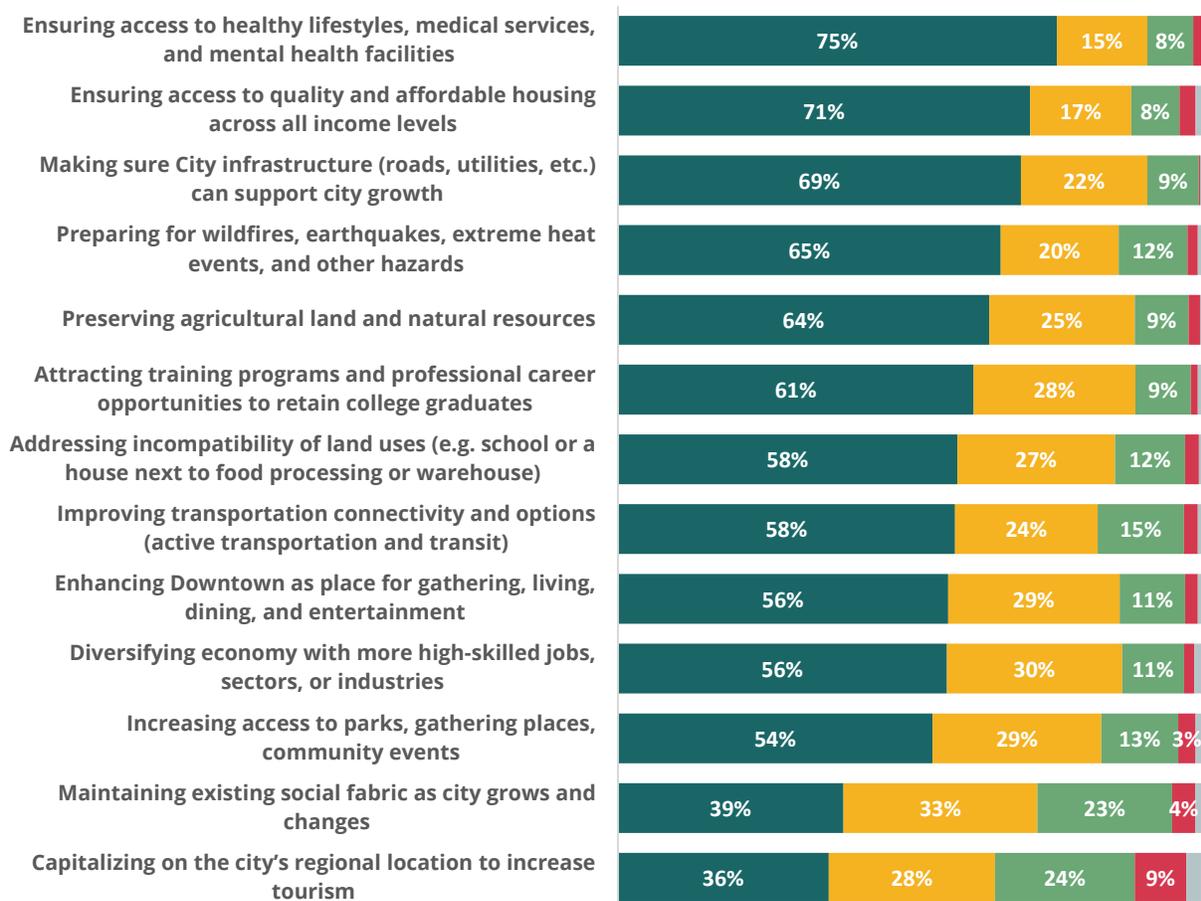

- Ensuring access to healthy lifestyles, medical services, and mental health facilities (75%)
- Ensuring access to quality affordable housing across all income levels (71%)
- Making sure the City infrastructure (roads, utilities, etc.) can support city growth (69%).

Two potential changes were ranked much lower or had a mixed response from survey respondents:

- Maintaining existing social fabric as city grows and changes (only 39% rated “very important”)
- Capitalizing on the city’s regional location to increase tourism (only 36% rated “very important”).

How important are the following changes to Santa Maria in the future to you?

■ Very Important ■ Somewhat Important ■ Average ■ Not Very Important ■ Not at all Important

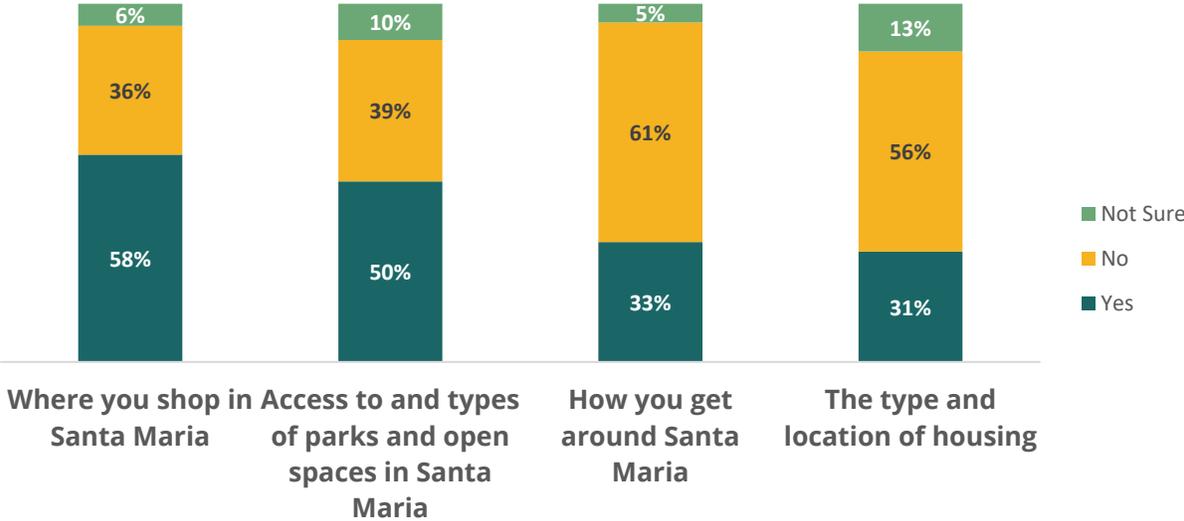

COVID-19 Impacts

Respondents were asked if the COVID pandemic changed their thoughts on four key topics:

- Over half (58%) said it had changed where they shop in Santa Maria.
- Exactly half (50%) said it had changed their thoughts on access to and types of parks and open spaces in Santa Maria, with one in ten people (10%) unsure about this.
- Almost two thirds of respondents said it had not or they were unsure whether it changed their thoughts on how they get around Santa Maria (66%).
- More respondents (13%) were unsure about any changes in how they think about the type and location of housing than for the other three categories.

The majority of respondents (62%) were open to the City temporarily transforming portions of streets and parking lots into public spaces for exercise, dining, and socially distanced gathering.

Has the COVID pandemic changed your thoughts on the following?

Do you think that the City should temporarily transform portions of streets and parking lots into public spaces for exercise, dining, and socially distanced gathering?

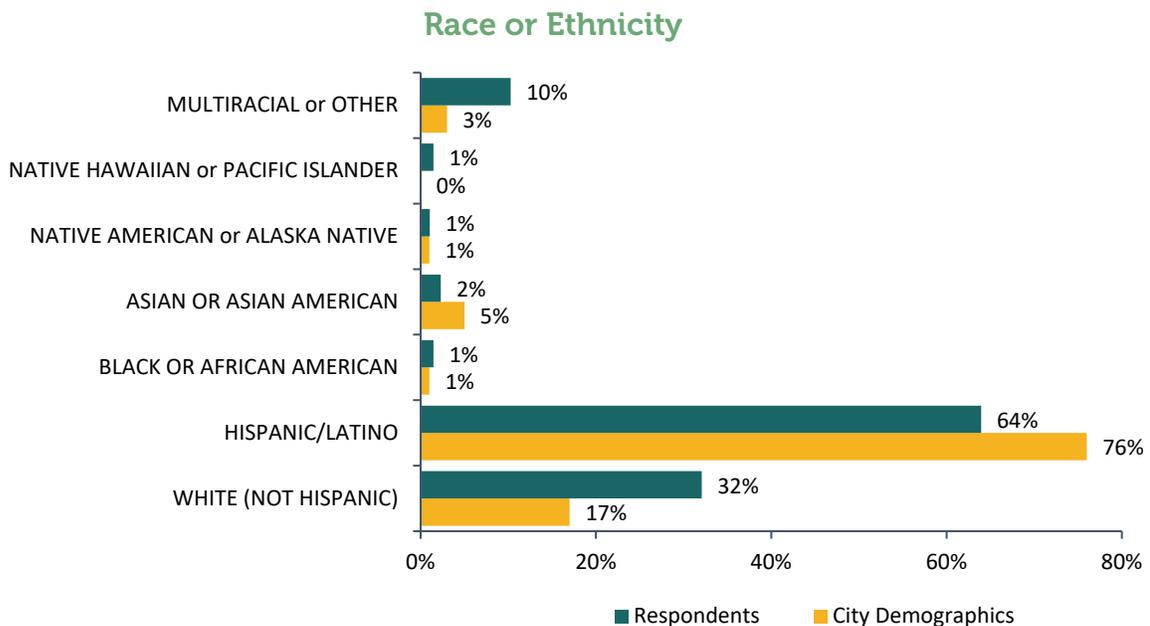

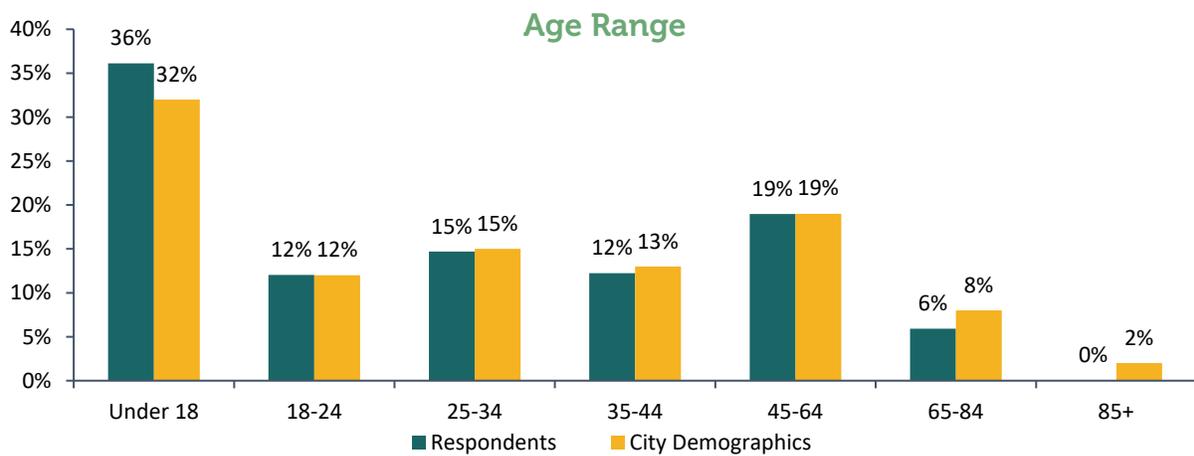

Survey Respondent Characteristics & Project Outreach

Demographics

The survey included questions about respondents' demographics, and highlights are summarized below:

- Most respondents live in Santa Maria (84%).
- Almost two thirds (63%) of respondents identified as female.
- Overall, the demographics of survey respondents were consistent with the demographics of the City, indicating that participation was representative of City residents.

Project Outreach

The survey also included questions about project outreach. Highlights are summarized below:

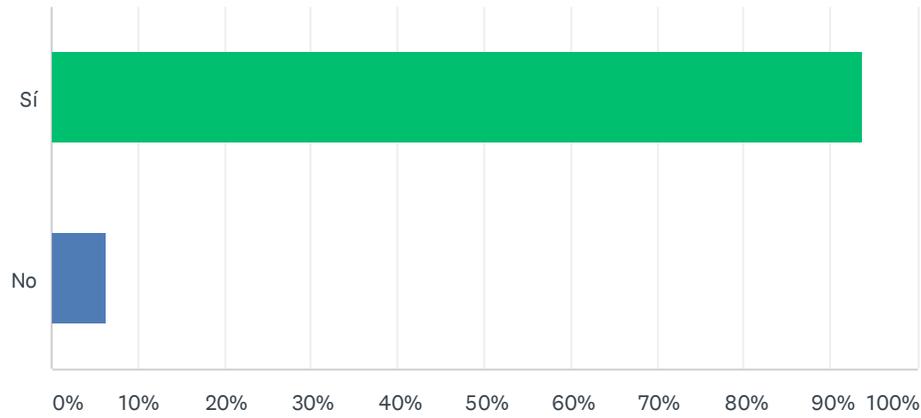

- Respondents heard about the survey in many ways: Social media (32%), From friends (19%), Emails from local organizations (19%), Emails from the City (13%), Utility bill (9%), and the City website (8%).
- Over half of respondents also said they heard about the survey from other sources, such as: Their school district, including teachers, administrators, or guest speakers in classrooms; Councilmember Gloria Soto; CAUSE; Employers; NextDoor; Newspapers; Emails from the public library; and a Democratic Club.
- The top ways that respondents would like to get information about the General Plan Update in the future include: Emails from the City (55%), Instagram or Facebook (30%), and Newsletters and the Project Website (27%). In addition to the methods listed in the survey, participants also suggested the following information-sharing channels: employers, local newspapers and radio stations, the school district, churches, and a city texting app.

Appendix A: Qualities and Changes Survey Results (Spanish)

The survey was available on SurveyMonkey in Spanish and English. The attached report is an exported SurveyMonkey report summarizing each question and including all responses received through the Spanish version of the survey.

126	Born and raised here in Santa Maria. Most other people in their 20's want to move away but I see the potential our city can have and I hope to stay and help that change happen by over time changing and refining how Santa Maria looks visually. Beauty is a universal human need and I feel that if our city makes an effort to look more cohesive, similar, and beautiful, people in our city would start to take pride in our community and get more involved. I recently took an uber and the driver was commenting how people visiting Santa Maria are shocked that Broadway is the main drag to the city because it lacks any sort of identity or "niceness". If we implement plans and design mandates today, we can effect change on the way Santa Maria looks slowly over the coming years. It will take time but it is worth it. If Santa Maria hopes to attract businesses to relocate here, we as a city need to have an identity. We need to take advantage of all the benefits that we have: available land, vineyards, perfect weather, close to the beach, local produce, commuting distance to SLO/SB. It would be an absolute tragedy for us not to act on it. The city MUST DENY any design plans that include modern design. Most of these corporate/retail developers are building for profit and not to make the building last. Santa Maria city hall was built in 1934 and today 86 years later looks beautiful today. Santa Maria Style Architecture mandate on all new development.	9/6/2020 6:38 PM

80	It's excellent police and fire departments.	9/8/2020 8:24 AM
81	Culture	9/8/2020 8:23 AM
82	The people are down to earth, hardworking and family orientated.	9/8/2020 8:22 AM
83	Love that generations of family, going to a store and running into a childhood friend. The sad part, multiple families living in the same home, vehicles parked everywhere in neighborhoods, making them look run down. New folks not taking care of their rented homes. On the bright side, the mapping of streets in Santa Maria was great, easy to arrive to your destination, great planning. A bad note, too many people running red lights which cause many accidents.	9/8/2020 8:20 AM
84	It is my home town. I was born and raised here, both of my children were born and raised here, my husband and his parents, siblings were born and raised here. We are natives and the rich things that Santa Maria has always offered us are not as prevalent as they used to be.	9/8/2020 8:20 AM
85	Santa Maria is unique because through my eyes, I have seen it grow from a field city to emerging alike city type feels with improvements, i.e. housing, stores. Also, the fields around Santa Maria such as the one by Blosser and Bradley, that reminds us how Santa Maria started and is growing.	9/8/2020 8:16 AM
86	The agricultural that surrounds the city.	9/8/2020 8:16 AM
87	It's small town feel even with it's rapid growth over the last few years	9/8/2020 8:15 AM
88	The community loves soccer as a family gathering sport, a national past time, but that is not accentuate enough. Imagine a huge sports complex with multiple soccer fields that kids and adults could play soccer at NIGHT when the community os actually home. Also, imagine a big stadium and a semi-pro team for kids to grow up rooting for and training to play for some day. Many kids play at Minami tennis courts every night if the week, but they get In trouble for it. Imagine a sports complex where teens could play in a safe place and be mentored by the working class as they all play together at night. More indoor stadiums like the one at the YMCA are needed in the center of town and Noeth end of town.	9/8/2020 8:13 AM
89	I chose Santa Maria as a home town for my children. It was a place we could put down roots. It is close to the beaches and many amenities.	9/8/2020 8:10 AM

95	the calmness and affordability	9/7/2020 9:51 PM
96	Santa Maria to me is one of the most special/unique places in all of California. Perfect weather, vineyards, farms, close to the ocean, easy commute to SLO/SB. If Santa Maria mandated all new construction by Spanish/Santa Barbara style, it would change this city for the better. Ive had a chance to talk with several people about the new Enos Ranch development and while everyone is happy about the new stores, a couple people have been confused about why it looks SO different from everything just across the street. I wish i had started to get involved and watching the planning commission when i was still in high school so I could have understood why that design was approved and not made to look like the Cross Roads shopping center literally across the street. But besides that, life goes on and there is still many opportunities for Santa Maria.	9/6/2020 6:47 PM

104	As a local, I would love to have a downtown where families, the youth, businesses can come together to improve the backlash that Santa Maria gets. Plus most locals leave the city to spend their time and money. We need to bring that back to Santa Maria. Improve the quality of living here.	8/21/2020 7:35 PM
105	There's a great opportunity with the proximity to Guadalupe and the beach, though consideration to creating a friendlier and better landscaped coastal access corridor on West Main Street to Guadalupe should be considered if there is ever going to be a drive for coastal tourism.	8/21/2020 3:03 PM

109	I believe that Santa Maria's diversity, it's strong ties to the Chicano/a culture, and agriculture/food/wine makes Santa Maria special. It's geographical location is ideal.	8/19/2020 9:49 PM
110	I believe it's stated above, strong local economy. Great Healthcare access. I love being able to get everything i need right here in the city. Wish there were a bit more restaurant choices, but we're getting there.	8/18/2020 10:42 PM
111	Santa Maria is unique because of the smaller and tight knit community and people are nicer here. It also doesnt feel congested like big cities. The weather is also perfect. have stuck with the Spanish style roofs and palm trees that the Home Depot / Walmart developments had. I have heard alot of complaints about the totally mismatched design right across the street. All new developments should be spanish style modeled after Santa Maria City hall to preserve character of the community. I love this city too much to see it lose its identity.

130	Santa Maria is not a city. Santa Maria is a series of connected strip malls, devoid of any character. The new construction near Costco must be one of the ugliest new neighborhoods I have ever seen. Talk about congestion. Car dealerships, a high school, apartments and commercial. What city planner did you find that would create such an abomination.	7/30/2020 7:03 PM

139	Santa Maria has a "small town feel". People know who is who and what is going on...even though the population exceed 100,000. There are established long-time families who are the backbone of this city and care deeply for the well-being of the community. There is a stability in the community that is unlike any other and it is our wish that the above resources are closely monitored to keep families and business here in the Santa Maria Valley.	7/28/2020 12:25 PM

143	Santa Maria is the biggest city in this area of the Central Coast, yet residents feel like they don't have the resources needed to succeed. Quality of life is uniquely diminished when compared to life in surrounding communities. What makes us special is that we are indifferent to any approach to ecotourism, we lack of infrastructure in relation to population, and there is thirst for population growth that is unsustainable.	7/27/2020 3:09 PM

150	Santa Maria has amazing weather that allows for outdoor exercise almost everyday. People are on the levy EVERY DAY-it's awesome! Santa Maria is a multicultural community. Children can grow up in our community feeling proud of their ethnic backgrounds and their multilingualism. Our community also provides many avenues for employment, and the opportunity for a better life through hard work and service. We also have solid public services, especially for our youth, such as the public library, Paul Nelson Pool, and parks and rec classes.	7/24/2020 9:47 AM
151	Lots of local parks - very walkable - nice senior and community centers - AHC - symphony-active service organizations - nice library-- all in a small town	7/24/2020 9:08 AM
152	The failure of its leadership to recognize the markup of its constituency and actually serve them instead of trying to make a mini Santa Barbara.	7/24/2020 6:16 AM
153	Strawberry fields - our strawberries are shipped all over the country. The city should promote this as the high quality products this city produces, also, promote the field workers that do this work and make our city a national business. The Strawberry Festival is another unique aspect of our city. No other neighboring city has that widely known of an event - so our city should make the festival bigger and better and widely promote this as a major city event. The very name of our city "Santa Maria" is a special name, like Santa Barbara, Santa Monica, etc. - we should use this name as a way to promote our city being of a high quality city like those other cities. It should be seen as a place a strong community, a beautiful city that has a cohesive style, with annual traditional events that bring in people from other cities to our events. If you look at Santa Barbara, they have huge annual cultural events that draw big crowds and people know what that city stands for (ex, the annual Fiesta event) - Santa Maria should also have strong annual events that focus on culture. Culture appreciation brings people together. Our local high school Santa Maria High School should be a major focal point of our city, because it holds the city name and has a major historical significance to our city as well. All of this is about promoting our city - promoting is good for advertising, especially in an age of social media.	7/23/2020 1:46 PM
154	I love having a skating rink in town. Those are now very difficult to find even though there is a renewed interest in the sport. Also love coming home from work with little traffic. 172	Santa Maria is an easy place to live if you make enough money. Santa Maria is a much harder place to live if you are an essential worker, a farmworker, or in retail sales/restaurant industry. While the beauty of the central coast and the city's small and navigable size are great, its longterm prosperity and quality of life will be harmed by the city's general over-reliance on sales tax revenues, big box stores and commercial developments, and its seeming unwillingness to "think big" about its biggest problems (housing, jobs for young professionals, opportunities and education for all its youth)	7/21/2020 10:49 PM

178	I do feel that Santa Maria's downtown needs a total overhaul. I would like to see locally owned shops (that represent our cultural diversity) with a strolling "downtown". Our mall area does not contribute to our community spending time together and supporting local business owners. There is no real downtown with opportunities for bike riding, strolling, live music, etc among trees and shops. It's a real shame. West Main Street could be this and would be a way to support many of our Mexican community shop owners.	7/21/2020 3:00 PM

187	We need to have more community involvement. There needs to be more events like downtown Friday's. Santa Maria has so much potential! What happened to the Autumn Arts and Grapes Festival? We need to have more inclusion events in the city (i.e festivals, gatherings, etc). We need should have our downtown decorated in each of the perspective holidays that would catch a lot of the attention in the downtown area aside from restaurants and stores.	7/21/2020 10:42 AM
188	I would like more to do downtown. The mall doesn't work for me. It is empty. I miss a definite place to dine and hang out.	7/21/2020 10:33 AM
189	Nothing - there is no cohesiveness in Santa Maria quality of life issues. City leaders only want tax income	7/20/2020 6:33 PM
190	Santa Maria has a unique history and blend of races/cultures/heritages. It is important to understand the agricultural background and the makeup of the people that used to live here and continue to live here. The City needs to be more than a bedroom community if it is going to thrive.	7/20/2020 7:55 AM

47	Most of the stores are going out of business.	9/14/2020 11:42 AM
48	With the COVID pandemic the access to parks should be limited to stop the spread of the pandemic by not allowing large party gatherings or for youth to form larger gatherings on playgrounds. Also public transit has now become a fear of using instead of a convenient use of transportation so I think more trails, bike ways and other routes of transportation is necessary.	9/14/2020 11:07 AM
49	Some parks are open to walk and enjoy the scenery but the playgrounds are close making it feel not welcome. Homes need to be more open with ventilation moving across plus having more backyard space to enjoy fresh air. I love shopping but to be honest, our Santa Maria mall is so sad. It would be nice to see more stores and entertainment places for kids and youth. Specially, youth to get them out of trouble.	9/14/2020 8:18 AM

96	I know that many of my students fear going out in SM because it is such a hotspot fir COVID. They aren't playing outside, traveling, or shopping within SM. I also know that dependent on each student's family, they can have up to 12 people in an apartment, which means if they are closer to the hotspot than one family member contracting COVD can wipe out the entire family. It's a very scary and challenging time for SM students right now.	9/9/2020 8:05 AM
97	idk.	9/8/2020 10:55 PM

111	Open space has become important to maintaining physical activity for youth and adults alike. Supporting local, small businesses has also become essential as the state continues to stifle their businesses with restrictions that make it near impossible to turn a profit.	9/8/2020 10:48 AM
112	The pandemic has brought to the surface the lack of affordable and sustainable housing for our residents. We need more mixed income housing so everyone has an opportunity to provide shleter for their family and we do not further segregate the city by income and race. We have many single home developments in the process that are out of reach for families in our city.	9/8/2020 10:39 AM
113	It is important to shop in places that care about our health and parks/open spaces are more valuable now than ever in order to see others while maintaining social distancing.	9/8/2020 10:29 AM

115	I shop mostly online	9/8/2020 10:12 AM
116	Some of the few activities people could participate in during quarantine was enjoying outdoor spaces & taking walks. There are many neighborhoods in Santa Maria that don't offer those opportunities so people had to drive to locations where it is available, which many people can't do.	9/8/2020 10:12 AM
117	I am worried more about the homeless finding proper facilities to help them when needed.	9/8/2020 10:12 AM
118	Need more parks and open spaces so families have an outlet during COVID. Need affordable housing so people aren't living in cramped spaces. Try to avoid crowded areas and stores during COVID. Make sure stores and shops comply with regulations.	9/8/2020 8:42 AM
119	I try to avoid stores that are really strict about the guidelines and support the businesses and people that are less strict or who are being creative in still trying to make a living.	9/8/2020 8:37 AM
120	I refuse to have circumstances out of my control define me as a person and control me.	9/8/2020 8:32 AM
121	For example, restaurants. For Santa Maria to attract alike tourists. We need to see how Europe and other cities set up their cafes/restaurants like outdoor sitting. I did not noticed any restaurants set up like that before the covid but now I started to see that. What I am saying is if I was a owner, I think to outside the box, how to attract people's attention. Also, the town mall, maybe for the stores to actually stay in the mall, an improvement needs to happen. For example, the Orange outlets from Santa Ana, all the stores are out in the open. Maybe, the mall need to be an open mall because we do not know if there will be another alike epidemic that will keep the stores from running their business.	9/8/2020 8:32 AM

124	Multi-family dwellings are at the heart of the spread of COVID. In addition, the method of getting the danger of COVID to the agricultural community has been very slow and has caused the virus to spread unnecessarily.	9/8/2020 8:26 AM

142	We have no use for chain stores. Keeping local businesses alive is much more important. Keep our money hereS	8/24/2020 11:37 AM
143	Santa Maria was one of the only local cities that kept their parks open. Some parks and open spaces on the north end of town are run down or unsafe. Making parks, clean, safe, easily accessible is essential if future viruses shut down the world again. Shopping at small business or family owned chains has never been more important to me. I wish Santa Maria had a downtown area like the Old town part of Orcutt. One where you can park and walk from tasting room to brewery to eatery. We are seriously lacking an out door night life that is upscale and we'll maintained. I feel like the streets surrounding our mall, around where The Maya restaurant is located, could be a great location...but it would need a serious face lift and clean up. I also think we should have some way to help/address/support the growing vagrant community. Maybe we ask Jeff Besos to open two or three community living dwellings that offer beds, showers, and basic needs (medical, mental, job training.) Obviously, I don't have a simple solution to that problem, but if we build a way to keep people off our streets and out of the river bed, maybe we can have a downtown area that people will come out for.	8/24/2020 9:18 AM

147	Given that gyms are closed, it's been difficult to get exercise given the lack of outdoor access that feels safe. More recently, I've spent more time shopping in SLO given the types of stores located there.	8/21/2020 3:03 PM

150	Being that we have poor bike lanes, outdoor transportation would be great during COVID-19 to get exercise but it's simply not safe in Santa Maria due to the lack of bike lanes.	8/21/2020 1:40 PM
151	COVID has really made me think about density and affordability.	8/19/2020 9:53 PM
152	Realized i love the outdoors, we had just become accustomed to Pismo Preserves prior to the pandemic, would love to be able to hike, and enjoy a beautiful park with walking trails right in our own backyard. My son is 22 years old, and is an avid athlete and aspiring basketball player. There are no gyms in this area that's truly open to the public to play basketball freely. Maldonado center, is okay, but not like a college basketball gym. He's now showing signs of depression, and i'm worried. And to think, all we need is a gym? Think how many other young males/females feel the same way. We had this problem in Lompoc too. I used to pay to have access for him at the Anderson Rec Cntr. Now that's a shame. We should have a gym for our kids that is open and totally free.	8/18/2020 10:54 PM
153	Covid is a perfect opportunity to pivot and develop more outdoor dining spaces downtown. We have the best weather in probably the world and its a shame we don't utilize it.	8/17/2020 9:45 PM
154	It's opened my eyes to the economic disparity in our communities, families should be able to afford houses without working 3 jobs. Especially now with covid and all the homeschooling. Homes need to be affordable. More space for people, more happy people. I also think covid has changed which stores I go into, I've been utilizing pickup options more and if stores have a lot of people I don't go, such as Costco. Or if I know they aren't implementing mask wearing I don't feel comfortable going in. I've only been going for necessities	8/16/2020 7:56 PM

beautiful and have a sense of place. Santa Maria should reject the ugly mismatched architecture and adopt a single architectural theme like the Santa Maria High theatre (Spanish style) so that over time Santa Maria can develop a recognizable architectural style.

156	Tend to shop less at big box stores if possible. Trying to support small businesses and restaurants.	8/10/2020 10:11 PM
157	There have always been germs everywhere. I like it better know that cooks and waiters are required to wear masks and eveything is being disinfected more regulary than before.	8/10/2020 3:54 PM
158	Access to parks, trails and open space has become even more important. Living within walking distance of parks and restaurants is key as I likely will continue to work from home for the foreseeable future. I wish I could bike or walk more to commercial areas, but it's so unsafe and not enjoyable. Small businesses have been disproportionately affected by COVID, to where my go-to businesses now are large box stores or chains (which is unfortunate).	8/10/2020 11:26 AM
159	Will not use public transportation	8/9/2020 10:45 AM

165	How measures are being taken to make sure we are all safe	8/4/2020 3:36 PM
166	Certain stores I won't patronize if I feel they are too small and/or crowded, or if they do not enforce mask requirement. I also only go to the store for "needs", not "wants". I haven't been able to get a haircut or manicure. I'll only go to parks and open spaces if it is not crowded and if people are not wearing masks and social distancing, Would like to see streets closed to through traffic so people can walk more easily. More outdoor dining opportunities.	8/3/2020 1:41 PM
167	Not feeling save when shopping due to crowds and people not following guidelines.	8/3/2020 9:54 AM
168	I only go to parks if they are clean, and not crowded. I would like to see a fitness path around the perimeter of parks. One of my favorite parks in NorCal has perimeter path that 2.5 laps is 1 mile, and there are some things you can do for fitness along they way. Redwood City has music in the parks every Wed at City Parks. Locals usually walk to the park and enjoy free live music, food trucks, games, tables with info from various orgs.	8/2/2020 6:29 PM
169	I avoid crowds and anyplace where I can't maintain 6 feet distance from other people.	8/1/2020 4:31 PM
170	To many people in town don't take it serious enough and are helping in the increase of new cases. For this reason we just travel to other area to shop and spend time out doors where there citizens take it more serious and have better hygienic practice to avoid to spread.	8/1/2020 6:29 AM
171	We have to be more cognizant and cautious of where we do business. It's imperative that businesses and local agencies prepare for future impacts to the way we live, work, and play. Resiliency and safety are key. Think about the increase of mobility, connectivity, and critical need for technology infrastructure to power our departments and local community forward. We can hold true to our roots while reaching for growth as a city, community, and local economy. We must grow and reach into the future.	7/31/2020 12:48 PM

181	Although many stores offer "online" shopping it is not always feasible to obtain goods in that manner. Many small business have either closed or limited their hours due to the pandemic despite the fact they have taken huge steps to sanitize/disinfect their premises...especially in the hair/nail salons. It is a shame to see these business struggle or close. We still grocery shop at the same stores as before the pandemic but we only shop once a month.	7/28/2020 12:38 PM

192	The city's deficiencies have become more apparent. We as a city do not have adequate services for the homeless, the homeless and the mentally ill. The lack of affordable housing is causing the uncontrollable spread of the virus. The city's response to racial inequities is poor. It appears as though our city leaders are hiding during this epidemic. Food inadequacies, lack of testing and resources is no surprise with the mismanagement that has gone on for years in this city.	7/24/2020 2:03 PM
193	I want to be farther away from others.	7/24/2020 1:14 PM
194	I believe the city has not done enough to enforce safety at parks. The city has not done enough to provide education to the community. The city or community has not done enough to make farmers enforce CoVid regulations.	7/24/2020 1:12 PM
195	We need to take advantage of our amazing weather! We need more outdoor seating for restaurants and more outdoor communal spaces for exercising, socializing (at a distance if necessary), and community services. We need(Ed) PSA's and community outreach regarding Covid-19. Tapabocas is the wrong word to use at it implies that only your mouth should be covered and not your nose. I have stopped shopping at stores that did not have clear social distance protocols or were Not monitored and enforced by staff. I saw unmasked customers at vons, Albertsons, and food Max. Trader Joe's and Costco have been clear and consistent from the beginning and I have felt safe shopping there. Also, health care providers offices have mostly followed protocol, but my chiropractor did not wear a mask even after the stare ordinance went into effect! Some inspections by the city (like health department inspections for restaurants) are needed periodically, I think.	7/24/2020 10:01 AM

Maria high number of cases as a failure of leadership to warn and lead. eg, councilwoman Waterfield attended a larger celebration at Marian Medical Center during he height of the pandemic and people were not masked or practicing social distancing. It was grossly irresponsible.

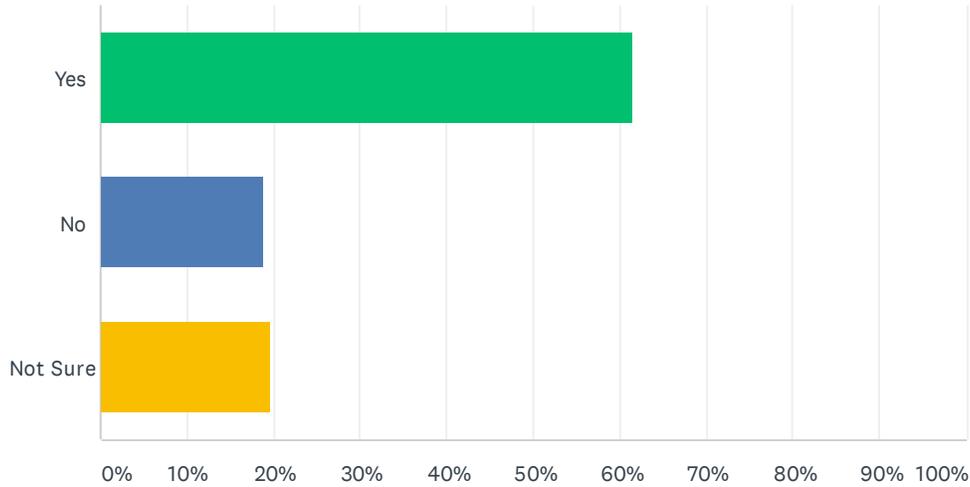

198	I am more cautious of where I do my shopping. If the stores seem to have a lot of people, I will choose to go somewhere else.	7/23/2020 9:26 PM
199	i shop in the "cleaner" areas	7/23/2020 10:22 AM
200	I try to avoid places that don't implement a mask. I also avoid places that don't have protection for the people from covid 19.	7/23/2020 7:25 AM
201	Some resources became unavailable in big stores, so it was great to see small businesses getting more customers for necessities.	7/22/2020 11:16 PM
202	You almost have to do some research if you want to go out an about.	7/22/2020 6:33 PM
203	Shouldn't of closed down the local economy	7/22/2020 6:21 PM
204	I have not changed how I feel about these topics. I appreciate the things I appreciated before.	7/22/2020 5:13 PM
205	Not very many shops follow the guidelines our government has set for requiring customers. It seems that most stores just put up a sign of "masks required" but no one is enforcing it. I've seen multiple customers in such stores without masks and employees ignoring it. Definitely makes me shop somewhere else.	7/22/2020 4:33 PM
206	I haven't really thought of these types of things .	7/22/2020 3:47 PM
207	a great deal on the places I have shopped and the cleanliness of the stores and the workers. This reflects on the business and if they care about the health of others and me as a shopper. Shows a lot. I have even stopped shopping and will not shop again at a few locations.	7/22/2020 2:14 PM
208	There are some places I know that are open to shop at Or go to but then there are others I am unsure of.	7/22/2020 2:02 PM
209	I want to help keep small businesses open, by shopping there.	7/22/2020 1:10 PM
210	I wish there was more preserved land in SM and surrounding area of SB county for hiking paths. Many in SM are doing ok but nit all are social distancing. It would be nice to get out hiking more without having to go up to SLO county.	7/22/2020 9:29 AM

213	A global pandemic makes obvious the places where a city and its resources are being squandered or ignored or found wanting. So yes to all of the above, including one you didn't ask: "Has COVID-19 changed your thoughts on local, state, and national government's readiness and resolve and willingness to protect its most vulnerable citizens?"	7/21/2020 10:58 PM
214	Not enough open space trails!! No where to recreate outdoors!	7/21/2020 4:39 PM
215	We are spending more time outdoors separate from people and have found the largest parks seem to be in Orcutt.	7/21/2020 3:04 PM
216	some locations are not taking it serious	7/21/2020 2:20 PM
217	It made me realize there isn't enough safe, affordable housing for low income and poverty-stricken people. It reinforced my belief that parks and open spaces are invaluable to the social structure of a thriving city, and the virus showed that there aren't enough of those spaces in SM. When the pandemic forced everyone to shelter in place, and because I don't have access to a kitchen, I realized my dining out options were severely limited in SM. Cheap and unhealthy fastfood or expensive mediocre restaurant food. No healthy, affordable options.	7/21/2020 2:15 PM
218	Overcrowded and substandard housing is causing a problem in containing the spread of coronavirus. Stores, restaurants and small businesses who did not take safety measures for their workers or customers seriously at the beginning lost my business and will not regain it.	7/21/2020 2:12 PM

223	I believe Santa María had great updates in regards to COVID. However, not sure if it reached everyone.	7/21/2020 12:35 PM
224	COVID is very real and not going away anytime soon. It would be nice if Santa Maria had a core Downtown where people can safely stroll and shop. There are not enough desirable places in Santa Maria where I want to walk and be out in the open.	7/21/2020 12:22 PM
225	Well.. everybody is closed so.. makes shopping a bit difficult..	7/21/2020 12:18 PM
226	It didn't so stop closing everything for other people please	7/21/2020 11:56 AM
227	I don't have confidence in local government to force businesses to comply with COVID safety protocol nor do I trust the Chamber or local business owners to do that on their own.	7/21/2020 11:04 AM
228	I feel not all store follow proper COVID protocol	7/21/2020 11:01 AM
229	There are not many local businesses downtown or available. I mostly order online now	7/21/2020 10:35 AM
230	I avoid crowded areas and do more online shopping. Infrastructure and support to give our local business the opportunity to go online as well as residents would be amazing.	7/21/2020 10:34 AM
231	The pandemic has shown many people and companies true colors. I do not want to support anything that does not prioritize the safety of the population above profit.	7/21/2020 10:31 AM
232	Shop entirely on line and delivery services. Much easier than going to stores and on-line services are more likely to have product in stock and better customer service.	7/20/2020 6:42 PM
233	I've always valued open spaces/parks and getting to them in non-vehicular modes of travel. COVID-19 seems to have opened that possibility/reality to more people and it may be more valuable to more people than before COVID-19. With regards to where I shop, I value local businesses and owners more than large chains. I go out of my way to shop locally and support businesses in my community and economy because the dollars stay here.	7/20/2020 8:03 AM
234	The lack of interest in maintaining our property values, and not implementing neighborhood standards by allowing any and all homes to become Boarding Houses. The state of California has implement allowances that as a city council, you have deemed as reasonable. Instead of implementing more restrictive standards than allowing homes to house 10-20 people in them. This has made our town not only look like, but become a slum. We also have many slum lords in the community and also wealthy growers who are taking advantage of our lack of leadership by not established city ordinances prohibiting this behavior to continue. It has degraded our community, established immoral behaviors of landlords by allowing inhumane living standards for many agriculture laborers. This has also been apparent in our Covid 19 numbers where many do not have access to social distancing, and minimal healthy cleaning standards. This has happened intentionally as far as I can see to apease the growers in our community. They tout that they are housing their H-2A workers in quality locations (which I agree with), but then have more that 50-60% or higher living in substandard conditions and endangering those neighborhoods with parked vehicles lining the streets, children playing in unsafe areas (along public sidewalks and streets), and not having sufficient bathroom facilities in these homes where people are using yards and bushes because of the lack of bathrooms. Our city leaders have continued to turn a blind eye to these conditions. We need agriculture to thrive in our valley, but the labors being brought in should be the responsibly of the growers and sharecroppers to provide their housing needs. Our community should not suffer because of this industry.	7/16/2020 1:20 PM

24	there's the city hall?	9/15/2020 3:54 PM
25	Go to quarantine more sooner to stop the spread to more people.	9/15/2020 12:08 PM
26	Santa Maria could take more precautions and listen to staying safe.	9/14/2020 11:49 PM
27	I feel Like Santa Maria should start to have the necessities like first aid bag for a future pandemic or a future emergency.	9/14/2020 11:44 PM
28	Many of the issues that have caused our mediocre response to the pandemic, in my opinion, are rooted mostly in the culture of many of our residents. I think the actions of the city themselves have been mostly sufficient, but there is a lack of discipline within our people that	9/14/2020 10:38 PM

Santa Maria GPU Issues and Opportunities Survey

inherently defeats the purpose of the efforts of the city to mitigate the effects of the pandemic. I think one of the best ways to reach out to families and households is through the youth, since many of the adults in the community, especially in Hispanic households, may not be willing to take the pandemic seriously, and this lack of discipline manifests itself in the form of careless gatherings and parties. Our youth tend to be more interconnected and up-to-date on issues, in my opinion, and they oftentimes have the advantage of being bilingual. Any efforts to improve youth outreach would be beneficial to our welfare under an extended order to shelter in place or in a future pandemic.

105	Keep small business open	9/8/2020 11:50 AM
106	Short term 1-3 weeks no problem Long term (current situation) we have to learn to live with it. the effects of a long term shelter in place could be worse than the reason for it. I have been healthy both physically and mentally. The effects of forced restrictions are weighing heavily on me.	9/8/2020 11:47 AM
107	More trainings at all School grade levels	9/8/2020 11:18 AM
108	Give people freedom of choice. We live in the USA because we enjoy those freedoms. Our economy and human mental health cannot sustain these shutdowns regardless of what a city's preparation plans are.	9/8/2020 10:48 AM
109	The city officials should be proactive and start community education right away, and target the most vulnerable. The H2A farmworker outbreak should have been prevented and mitigated better. It seems as though officials just sat around and watched it unfold.	9/8/2020 10:39 AM
110	Make the city for pedestrian friendly and more inviting to outdoor dining.	9/8/2020 10:18 AM
111	Currently Santa Maria isn't pedestrian friendly (there are neighborhood exceptions) and isn't "outdoor" friendly. It's a city that is built around roads and there's a lot of cars and traffic. It's not welcoming as a city to walk around or even enjoy outdoor dinning. People literally just drive to shopping centers. There isn't a sense of just parking your car somewhere and walking to different shops like in A.G., SLO or Santa Barbara.	9/8/2020 10:12 AM
112	Fight back and allow us to live our lives. This has drug on far too long.	9/8/2020 10:12 AM
113	More delivery services need made available to the public.	9/8/2020 8:42 AM
114	Invest time into the family unit by giving ideas for family fun nights in, effective parenting, quality relationships, etc. Also invest time into an iLoveMyNeighbor campaign where people are given creative ideas about how to love and serve their immediate neighbors better.	9/8/2020 8:37 AM
115	Have needed supplies to survive readily stored and able to dispense quickly.	9/8/2020 8:32 AM
116	I think the setting curfew helped a bit. But also, keep in mind that NOT ALL essential workers work from 7am-8pm.	9/8/2020 8:32 AM
117	I would allow restaurants and gyms to use parking lots for business. It also brings the community spirit together, supporting business while we stay as safe as possible.	9/8/2020 8:29 AM

118	The demographics of our city need to be considered when targeting getting information out to people living here. Many do not speak either English or Spanish, but speak a dialect of Mixteco (which is not a written language).	9/8/2020 8:26 AM
119	Build more stores for the public to have a choice in where they would like to grocery shop. If we have more options then I believe some of the big box stores wouldn't be as populated	9/8/2020 8:23 AM
120	I feel this will end after the election...	9/8/2020 8:22 AM
121	Nothing. No more rules. One of the great things about a conservative city is that there are free thinkers. You dont have to be Newsom's puppet.	9/8/2020 8:21 AM
122	Our youth is suffering due to the closure of their schools. Having more fun activities in our city and resources available to them would be helpful.	9/8/2020 8:17 AM
123	More open space for people to get out and exercise. More huge parks. Less big box stores. Duh.	9/8/2020 8:17 AM
124	Provide listing of services open to the public. Address the homeless issue. Obtain grants to provide housing, training programs, areas to shower, medical services to these people. Work with govt. to make sure that these people are counted.	9/8/2020 8:15 AM
125	By offering a positive environment in businesses and essential workers. I believe essential workers have not been highlighted positively.	9/8/2020 8:15 AM

132	Even without the virus /pandemic, it would be a great idea to start pushing for more outdoor seating. One of my classmates in college is from Ohio where they would have horrible winters and people in the midwest WOULD KILL to have our weather and they would be walking / cycling / eating outdoors every day if they had our weather. New city buildings should start developing buildings/shopping centers with mandatory outdoor seating for retail developments.	9/6/2020 6:52 PM

Open the city pool, create one central location that has daily and nightly activities for the entire family.	8/24/2020 9:18 AM
142	There needs to be more accessibility to out door facilities; parks, trails, pools, so those that are "sheltering in place" have an outlet.	8/24/2020 8:13 AM

148	By creating spaces for people to go while being properly socially distanced.	8/21/2020 1:40 PM
149	By investing in, and putting our most vulnerable first! Making sure that density is lowered for those who are economically disadvantaged. We rely on essential workers, we need to make sure everyone is safe.	8/19/2020 9:53 PM
150	I can't say that we didn't already do a good job. I'm proud of the city. I think the only exception is the schools should have better prepared in March 2020. Set the kids up for success. A shelter in place plan should have already been implemented in the event of a disaster or whatever. District should have had a playbook. Sent the kids home with computers, local internet services, books, workbooks, and meal plans.	8/18/2020 10:54 PM
151	Santa Maria is pretty well prepared.	8/17/2020 9:45 PM
152	Basic universal income, eviction moratorium, more rapid testing opportunities, internet discounts for parents school aged children for at home learning	8/16/2020 7:56 PM
153	No easy answers for this one. Many in the Santa Maria workforce can not afford to not work to shelter in place. Even if they did, their housing is crowded multi family so the benefits would be limited. An increase in improved low income housing over the next decade would certainly set a good foundation for future pandemic safety.	8/12/2020 10:24 PM

183	Close of parking lots in newer shopping areas to allow for outdoor dining.	7/27/2020 8:44 PM
184	Make face covering and other precautions mandatory and ENFORCE them. We see people around town without a face covering everywhere without the slightest remorse, since they know that police is not going to fine them. Those people might not care about the virus or themselves, but they should care about other people. I know some people must go out and work in order to be able to put food on their table, but they have to do it responsible. They should just go work, and go right back home. I have seen people who in the middle of the pandemic finish working and go to the liquor store to get beer. Any non-essential trips should be prohibited and enforced with fines, that's the only way people understand.	7/27/2020 7:50 PM

209	Better housing will allow people to social distance properly. There are many residents that live with multiple people in one resident. Additionally, informing the entire public properly can help people be aware of the situation. Some people are unaware of how serious a pandemic can be.	7/22/2020 4:22 PM

212	I believe our city did an amazing job with little resources we had. The quick thinking of all personnel and implementing safety first of our city's people reflects the outcome we had. If a shelter-in-place order should ever come again. Hold steady and firm until the pandemic is over. Then lift slowly, otherwise no one can control the spread. Better Safe then Sorry and we are back to square one. All the work everyone put into minimizing the spread seems like a waste of time, money and valuable resources.	7/22/2020 2:14 PM

219	More stimulus checks especially to essential workers. require postponed/lower rent or mortgages/car payments. Grocery certificates for those in need but can't get food stamps More appreciation and rewards for essential workers.	7/21/2020 11:53 PM
220	Re-imagine the jobs and responsibilities of every city employee and operation, including the police. Focus on youth and the vital institutions of public schools by providing every support possible. Make City Government the #1 source of community education by creating a consortium of journalists, educators, leaders, and young people who take responsibility for creating a Noozhawk-like platform where residents can find news and information (in multiple languages) about all things Santa Maria (including news about schools, city government, county resources, and business/employment resources.)	7/21/2020 10:58 PM
221	I'm not sure if Santa Maria is able to do this, but enforcing the wearing of masks for all who lack medical conditions which prevent them is very important. I also think we need enforce restaurant safety guidelines much more strictly, I work in a Santa Maria restaurant and they were not following guidelines. Our bar would be absolutely packed with no way to social distance, and I couldn't enforce it on my own (customers wouldn't take me seriously, I'm a young woman and our typical clientele is rich old men.) The safety of both teachers and students should also be a paramount concern. Everyone would love to go back to school face to face ASAP, but we simply can't afford to lose any lives of students or teachers to a preventable disease. I'm sure if you ask any teacher, they will tell you how hard it is to get students to focus on simple tasks, let alone trying to keep them socially distant and wearing their masks and washing their hands. Until we are 110% sure we can keep both students AND teachers safe, we should not be open face to face. Doing half of the student population on one day, and half on the other, might be a way we could do this safely. 2 weeks in person, half of the class at a time, and then 2 weeks remotely would also work. This way if any students do get sick at school, the 2 week remote quarantine time is built into the system. Then students would just need temps checked and surveys down before re-entry when the 2-week remote session is done. Much more manageable than temps and surveys every single day.	7/21/2020 7:08 PM

225	Allow for no-traffic areas for restaurants to spread out - and people waiting for food (have you seen how people end up congregating while they wait for food? Maybe we need to help with shade and seating.)	7/21/2020 2:20 PM
226	Create more open, outdoor and permanent exercise, art, culture, musical and social community areas. Attract higher quality food options. Build a better communication system to disseminate emergency information to citizens. Create continuity between agencies, streamline and simplify services and make the focus of all city growth people-oriented.	7/21/2020 2:15 PM
227	Temporary housing needs to be available for overcrowded shelters, overcrowded high density housing and H2A housing so families have space to isolate. This needs to be paid for by the Ag industry and by a tax/fee on landlords who allow overcrowding in their rental units.	7/21/2020 2:12 PM

241	There needs to be better access to affordable housing and childcare. Our community needs to improve employment opportunities to create jobs that are not reliant on tourism or just social interaction. We're seeing communities nationwide that are affected by tourism/dining industries being closed for months. Our City relies on tax dollars from hotels and car sales.
